

Integrity Automotive Protection

Integrity Automotive Protection is designed for the person who is seeking quality coverage for their investment in a new or pre-owned vehicle. Over the last decade, advances in technology have provided even the most basic vehicles with extremely complex components. Vehicles now have increased power, efficiency and luxury. However, these improvements have come with a significant price. The average cost of repairing a vehicle has increased dramatically and is a major financial burden for most owners. IAP specializes in providing you with quality products that help you to protect yourself from the high cost of mechanical failures.

CHOICES

IAP believes that you should have the choice of selecting the coverage that is right for you. Based on your needs and the type of vehicle you own, you have access to up to four types of coverage. Whether you're just looking for major component coverage or the peace of mind that a wide variety of systems coverage can provide, IAP has a program that will meet your needs.

SECURITY

IAP's reserve funds are fully insured. This is one of the most important aspects of any product of this type. Many products are not fully insured and this fact is not disclosed to you at the time of purchase. You can rest assured that with IAP your investment in the product is Fully Insured to give you peace of mind down the road.

INSIGHT

IAP plans were designed to address customer needs by utilizing information from thousands of customer claims. Each level of coverage is specifically tailored into component groups that are proven to meet a wide range of customer expectations. All programs include additional benefits which compliment the coverage you select. Most plans also include a Roadside Assistance Membership with a full array of services. In addition, IAP has also developed a superior rental program. We understand that even a small repair to your vehicle is a big inconvenience. Our program allows you to qualify for rental reimbursement coverage for any authorized repair to your vehicle.

At IAP, because we specialize in providing customer satisfaction, our programs were developed with your needs in mind.

SERVICE

IAP utilizes a state of the art call center to ensure that when you need our help, we are available. While many companies service multiple types of insurance products, the IAP call center specializes in automotive claims. Our staff is dedicated to your needs and the needs of your automobile.

INTEGRITY

IAP has specifically designed your contract to be as clear and concise as possible. Consumers are often frustrated because contracts are filled with gray areas and confusing language. Read the IAP contract coverage and you can be assured that the coverage you have selected is the coverage you will receive.

IAP is backed by an insurance company that is rated A- by A.M. Best.
